

Pricelist

PERPETUAL LICENSING MODEL

Perpetual licenses are licenses that never expire. Users can continue to use up to the last released version that was available when your maintenance license expired. Subscription licenses receive updates and support through the subscription period, but cannot be used after the subscription expires.

SUBSCRIPTION LICENSING MODEL

Subscription licenses receive updates and support through the subscription period but cannot be used after the subscription expires.

SITE-LICENSE

Allows the user to utilize unlimited instances of the software within a defined geographic location.

DIS 8 READY

Our products support DIS Versions 5 through the upcoming DIS 8 (IEEE1278.1-202X) which is expected to be released in 2026.

Updates and Support:

Unlimited Support and updates are provided free for subscription licenses for the period of the subscription. Perpetual Licenses are provided 1 year of support and updates with purchase of a license. Additional support may be purchased for perpetual licenses by purchasing a maintenance agreement.

Maintenance Agreements:

Maintenance Agreements, which extends the period for support and updates of the software for a period of one year, for perpetual licenses can be purchased. If the maintenance agreement is kept current, the price is based on the **original purchase price**. If the maintenance agreement expires without the purchase of a new agreement, then the price of the maintenance agreement is based on the **current product**. The price of the maintenance agreement is one third of this price per year plus reinstatement fees if expired.
